Does it matter to you
if your milk takes
the long way home and
loses most of its vitamins
along the way?

Taste today's fresh milk. Today.

Fresh milk is rich in vitamins. Exposure to light leads to a significant reduction in vitamins content. This is especially true for fresh milk being produced in a different country. And, transported more than 2,000 kms before it reaches you. On the other hand, here's Al Fandi Fresh Milk. Fresh to the nearest extent. Al Fandi Milk is produced in the UAE for the people of the UAE. Transported straight from the dairy to where you live. So, the next time you are buying milk, try some today's milk with us. Today. FRESH MILK. DOUBLE CREAM MILK. LARVA. FRESH LOW FAT MILK. FRESH SKIMMED MILK. We, at Al Fandi, value your comments. Call us on Toll-free 800 4 027 or Internet: www.alfandi.ae or info@alfandi.ae

HITACHI
Inspire the Next

Put an end to all your Worries with HIPA

(Hitachi integrated Product Application)

With the increase in Self Service Terminals (SSTs) its security concerns have also increased. To protect the machines from malicious software and from unauthorized access Hitachi brings to you HIPA; and end-point security solution for SSTs which takes care of SST security needs with a single click install.

www.hitachi-omron-ts.com

Why HIPA

HIPA is a more comprehensive solution as it is designed not only to shield against malicious software, virus, trojans etc. but also prevents the zero-day attack. It freezes the SST if the application files are tampered. Thus, providing complete security to the SST from any kind of attacks. In addition, it has a very small memory footprint, thereby not affecting the normal working of the SST.

WHITE LABEL PRODUCT

Legal permission to place your brand name
Use, promote or sell under your brand name
Save time and money on designing and developing the software yourself

EASY INSTALLATION

HIPA is easy to install and easy to configure.
Supports Windows 7 and Windows XP configuration.
Manual installation by our engineers (recommended) to ensure that the SST hard disk is clean before loading the application.
All system settings, configurations and necessary agents are loaded before installation.
Does not allow any modification of existing whitelisted files.
Does not allow installation of new files.
Uses very less disk space (2 Mb)

UNIQUE WHITELIST

Automatically creates a unique "whitelist" that determines what executables are permitted to run on that machine.
Begins protecting endpoint systems immediately.
Software doesn't require the user to specify in advance which applications and libraries are required to be executed.

THREAT PROTECTION - INTERNAL

After installation, the system goes into a lock-down mode
No application can run without its permission
Cannot be uninstalled and services cannot be stopped
The local administrator cannot tamper with the application by stopping or changing the services
SST forcibly restarts, if HIPA gets killed
New application cannot be installed after lockdown

THREAT PROTECTION - EXTERNAL

Only allows applications listed in the auto-created whitelist to run
Unauthorized application i.e. malicious software, virus, trojans etc., are prevented from getting executed as these are not white-listed
Tampering of application files freezes the SST

ABOUT HITACHI PAYMENT SERVICES

Hitachi Payment Services provides secure, innovative and comprehensive cash and non-cash payment solutions and services to financial institutions, merchant aggregators as well as new age companies driving the digital economy. A pioneer in the Indian payments space, its offerings under cash and non-cash platforms include Banking Automation Products like Cash Recycling Machines, ATM services, POS services as well as Emerging Payments Services such as Mobile POS and e-commerce based payments. It also operates its White Label ATM network under the brand Hitachi Money Spot ATM, and provides software solutions to manage SST networks.

Introducing,

Straight Through Processing for a smooth customer on-boarding experience

Dear Team,

It gives me immense pleasure to announce the launch of Straight Through Processing (STP) for HDFC Life Insurance products sourced by HDFC Sales. This will help our sales team in quick form filling and reduction in TAT, thus leading to a better on-boarding experience for our customers.

In this process, KYC details of the Life Assured will be auto populated as a result the KYC FR will be auto accepted.

In addition to this the Loan details (Insured name, Loan sanction date, Loan amount, Loan type and Applicant type) will also be auto populated and the loan sanction FR will be auto accepted.

Straight Through Processing will make your life easy by -

Quick Form Filling

Auto population of Loan details / Loan sanction letter FR auto acceptance

Auto population of KYC details / KYC FR auto acceptance

Retention guidelines for Home Loan Customer will be applicable

Let's cascade this information to make the adoption faster and smoother.
Good Luck and Happy Selling!!

Regards,

Nitesh Kumar
